B.E. / B.Tech. Academic Regulations 2026 (Revised Edition)

Institution: Anna University / VEXORA Educational Consortium

Official University Gazette: Approved by Academic Senate & Syndicate

Section 1: Preamble and Applicability

These Academic Regulations 2026 shall govern all undergraduate degree programmes of engineering and technology admitted from the academic year 2026-2027 onwards.

All registered students must satisfy the minimum requirements for course completion, continuous evaluation, and semester examinations.

Section 11: Attendance Requirements

11.1. Each student is expected to attend 100% of the working periods scheduled for each course in every semester.

11.2. The University mandates a minimum overall attendance of 85% across all registered theory and laboratory courses. A student securing below 85% overall attendance shall not be permitted to appear for the End Semester Examinations.

11.3. Continuous assessment marks shall be computed incorporating the candidate's attendance record throughout the 15-week instructional semester.

11.4. Medical Condonation: On exceptional medical grounds supported by authentic hospital documentation submitted within 5 working days, attendance between 75% and 84% may be condoned by the Dean of Academic Courses with a prescribed condonation fee.

Section 17: Teaching, Evaluation & Assessment Weights

17.1. Each registered course is assessed through Continuous Internal Assessment (CIA) and University End Semester Examinations (ESE).

17.2. Continuous Internal Assessment (CIA) weightage is established at 50% for all undergraduate theory courses.

17.3. University End Semester Examination (ESE) weightage is established at 50% of the total aggregate score.

17.4. Practical laboratory courses shall have 60% continuous assessment and 40% practical semester examination.

Section 18: Passing Criteria and Minimum Marks

18.1. A student must secure a minimum of 50 Marks out of 100 in the End Semester Examination to qualify for a pass in that course.

18.2. In aggregate (combining CIA and End Semester Examination marks), the student must secure a minimum of 50% overall to be awarded a letter grade.
